WHOLE NO. 1985.

DR. TOWNSEND'S SARSAFARILLA

house and have occular demonstration. Yours respectfully.

FROM STATS VAN WIE, ESQ.

This gentleman is one of the most respectable citizens of Albany, and his testimony proves Dr. Townsend's claim for his Sarasparilla, that it is the best remedy for children that ever was sold.

Da. Townsens—Bear Str. I take great pleasure in atting for the benefit of those who have weakly children, that my little son, who is about two years old, was troubled with loss of appetite, and had had always been sickly and puny; I gave him your Sarasparilla, and before he had taken half a boutle he was completely covered with a rash, which proved to be eryspeias, and he was so bad, you recoilect, I applied to you for some of Dalley's salve to relieve the irritation and you advised me to continue giving the medicine, and not use the salve for fear it would drive it in; and before he hat intaked the bottle, the rash left him and he has been well since. I would advise all parents who have weakly children to try it.

I would also state I have taken your Sarasparilla for dyspepsia, which troubled me for a number of years, and it is helping me very much. Any person feeding tocredulous as to the above statement, can see me by calling at 25 Elm-st.

SCROFULA CURED.

This seed least restrictively proves that his flarsaparilla.

This over I cale conclusively proves that his saragarilla has perfect control over the most obstinate disease of the blood. Three persons cared in one house is unprecedented.

Capt G. W. McLean, of the United States Navy, and member of the New-Jersey Legislature, has kindly sent us the following certificate. It tests to own story.

Ranway, Jan. 25, 1847.

A year since I was taken with the Influenza, and my whose system left in a debititused state. I was induced to try Dr. TOWNSEND'S SARSAPARILLA, and after taking two or three bottles, I was very much relieved, and airioute it entirely to the said Sarsaparilla. I have continued taking it, and that I improve every day. I believe it as red my life, and would not be without it under any coosideration.

G. W. McLean, late U. S. N.

CAUTION.

Owing to the great success and immense sule of DR.

TOWNSEND'S SARSAPARILLA, soumber of men who were formerly our agents, have commenced making Sarsaparilla Extracts, Eintirs, Sitters, &c. &c. They generally put it up in the same shaped bottles, claiming that theirs is far superior and four times stronger than Dr.

Townsend's, &c. hoping thereby to deceive the public.—Some use fectitious names, a few use their own; some of these unprincipled men publish counterful crifficale, others nave induced their brothers and other interested others nave induced their brothers and other interested persons to allow the use of their names, to which they put Leapire, to give them respectability. One makes a medicine and purish with respectable names procured by naing DR. TOWNSEND'S SARSAPARILLA, publishes the certificate of a person who styles himself an M. D. who mends shows, digs wells, begs, and doctors horses by turns for a livelihood. These and a great variety of other trash. The public should be on their game, and look out for counterfeits.

for female weakness and disease.

DISEASE OF THE HEART, RUFTURE AND DROPSY New-Yook, July 22, 1846.

DR. TOWNSEND—Dear Str. Ruw-Yook, July 22, 1846.

DR. TOWNSEND—Dear Str. Ruy wife has been afficied with a disease of the beart, and with a terrible rupture for over fifteen years, the greater part of the time. She has been troubled with shortness of breath and great futtering of the heart, which has been very distressing, and has frequently been unable to leave her bed. The rupture was requested to the cases with built lex led almost every remedy for such cases with built lex held almost every remedy for such cases with built lex held almost every remedy for such cases with built lex called the date. When ale had taken but three bottles of your excellent medicine, she was entirely relieved of the disease of the heart, and the rupture has almost entirely disappeared.

She has also had the dropsy, and was very much swollen. We had no idea that the could be so benefited, as she had such a complication of diseases. But it has, as strange as it may appear, relieved her of the dropsy. I am was that this statement is so atrange as to appear almost like fection, but is nevertheless, soher reality. Your Sarsaparilla is certainly a valuable medicine, and should be used by every one that its suffering as we have been. If any disbelleve this account, they are at liberty to call at my house and have occular demonstration. Yours respectfully. FROM STAATS VAN WIE, ESQ.

This centleman is one of the most respectable citizens.
